Subject: Intimation under Regulation 30 of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015

Dear Shareholders,

Business Update – Progress on Pune Manufacturing Facility

We wish to inform you that progress on the Pune manufacturing facility continues in line with our long-term strategy to establish a state-of-the-art hub for defence, mobility, and renewable energy technologies.

While regulatory clearances and statutory approvals have extended initial timelines, significant developments have taken place in recent weeks:

- **Consignments** — Delivery of all machinery and equipments has completed.
- **Machinery** — Installation and alignment of core machinery is underway.
- **Infrastructure** — Critical sections of the facility are being prepared for operational integration.

The facility is positioned to become a strategic nucleus for innovation, enabling scalable development across multiple verticals of the aerpace ecosystem. This foundation will support long-term value creation and reinforce our commitment to delivering sustainable, future-ready solutions.

Although schedules have been adjusted, the overall program remains firmly aligned with organizational objectives. Stakeholder support continues to play a vital role in driving momentum toward operational readiness.

Yours Faithfully,

For aerpace Industries Limited
(Formerly known as Supremex Shine Steel Limited)

Neha Mankame
Company Secretary and Compliance Officer
